# ANGLING

We supply leading angling feeds both for professional anglers as well as enthusiastic hobbyists. Happy fishing!

Sinking feed

Highly attractive feed

Floating feed

Ground bait

Hookable pellets

Water stability

Feed pellet

Flavoured with insect meal

**Alltech**® COPPENS

DEDICATED TO YOUR PERFORMANCE

# AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

- + Optimizes growth
- + Supports immune response
- + Optimizes digestive function
- + Contributes to mucous barrier protection
- + Contributes to external barrier protection

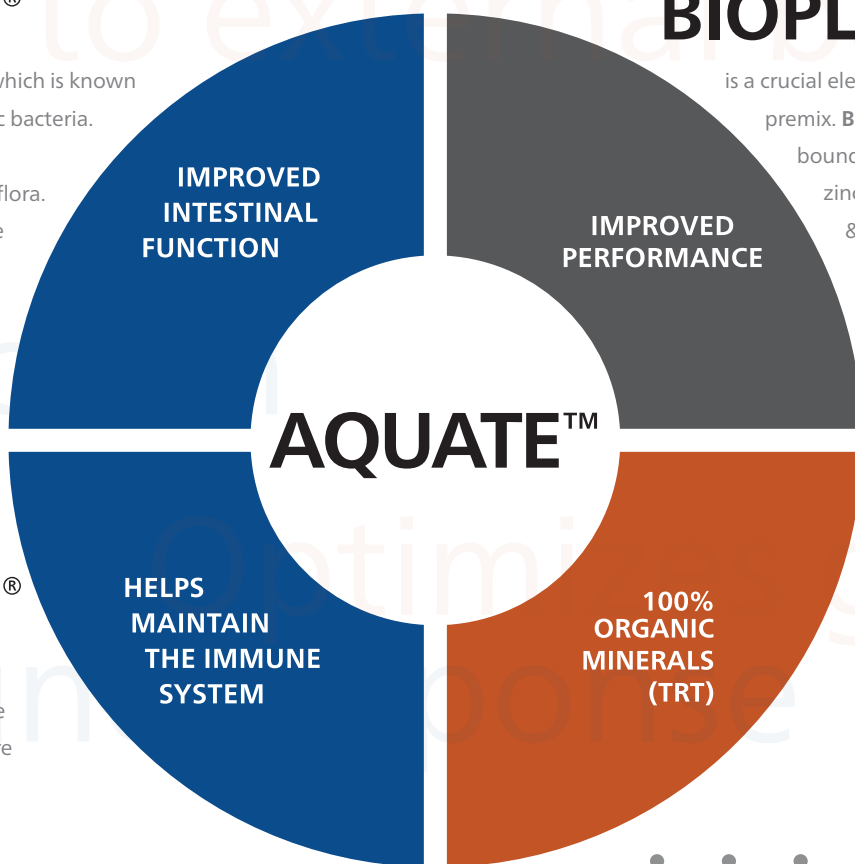

## BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

## ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.

## BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

**Alltech®** COPPENS

- High in animal protein
- With attractants like fish oil
- All purpose feed pellet

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	4.5 mm
Fat	8.0	8.0 mm
Crude fibre	3.1	
Ash	3.7	

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

Base is our new feed pellet which is suitable for all coarse fish species. Base can be used as stand alone feed pellets or can be added to ground bait. These pellets can also be offered in feeders or in PVA bags. For more information, please visit our website or contact your Sales/Export Manager.

- Predrilled hookable pellet
- Extremely water stable
- Packed with attractants like fish oil
- Contains betaine
- High in marine oil

### COMPOSITION:

Analyses (%)	8.0 mm	14.0 / 20.0 mm
Protein	33	33
Fat	16.0	16.0
Crude fibre	1.5	1.3
Ash	3.4	2.8

### Vitamins added

Vitamin A (IE/kg)	5000	5000
-------------------	------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

This unique smelling and tasting bait is very water stable, which makes it possible to fish with the same bait for a very long time and small fish cannot eat your carefully placed bait in the meantime. Its natural flavour leaks into the water giving both an instant as well as a lasting effect. The Black Halibut is especially designed for use with hair rigs.

- Packed with attractants like fish meal
- High in protein
- Micro pellet for long lasting feeding response

### COMPOSITION:

Analyses (%)		Sizes
Protein	40	1.5 mm
Fat	10.0	
Crude fibre	1.1	
Ash	6.5	

### Vitamins added

Vitamin A (IE/kg)	12000
-------------------	-------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

Our Gardon can be added to ground bait. Mixed with our ground bait the pellets can also be offered in a feeder for extra attraction.

Another possibility is to offer these pellets on their own whereby frequently small amounts are fed to keep the fish in the swim. In fisheries where only small amounts of feed can be fed GARDON offers many particles per weight unit.

- Packed with attractants like fish meal and oil
- High in animal protein
- Highly water stable
- Selects out the biggest fish
- Contains betaine

### COMPOSITION:

Analyses (%)		Sizes
Protein	36	28.0 mm
Fat	14.0	
Crude fibre	1.5	
Ash	3.3	

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

This giant is developed for big carp and catfish. Regular feeding in the selected area helps to keep the fish close. The size selects the bigger fish. And besides the size it is the highly attractive ingredients that stimulates a feeding response of the fish.

- Highly water stable
- Packed with attractants like fish meal and oil
- Contains betaine
- Flavoured with insect meal
- With spirulina

### COMPOSITION:

Analyses (%)		Sizes
Protein	42	2.0 mm
Fat	18.0	6.0 mm
Crude fibre	1.7	
Ash	7.0	

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

These high fish meal and high fish oil Green Betaine pellets can be used as standalone feed pellets or can be added to ground baits. Mixed with ground bait the pellets can also be offered in a feeder for extra attraction. Another option is to hook them with a pellet band.

- Rubbery structure after soaking/pumping
- Highly water stable

### COMPOSITION:

Analyses (%)		Sizes
Protein	37	4.5 mm
Fat	7.0	6.0 mm
Crude fibre	2.0	
Ash	7.1	

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

The pumped or soaked pellets are rubbery enough to stay well on the hook for a long period of time and are yet soft enough to pull out the hook when tightening into a fish.

The pellets absorb water which gives a unique rubbery structure to the pellet. Now the rubbery soft pellets can be put on the hook or even used as loose feed pellets. These pellets can also be run through a pellet pump to make them sink for use near the bottom. The soaked pellets are extremely water stable and they leak their attractants in water without melting off.

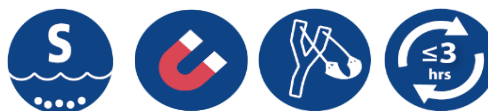

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Packed with attractants like fish oil
- High in animal protein

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	3.0 mm
Fat	5.0	4.5 mm
Crude fibre	2.3	6.0 mm
Ash	5.3	8.0 mm

### Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

These pellets do not fill up the carp and coarse fish quickly. Premium Carp is also very good for winter fishing due to the low oil content. It can be used as standalone feed pellet or can be added to ground bait. Mixed with ground bait the pellets can also be offered in a feeder for extra attraction. Another possibility is to offer the Premium Carp close to your bait in PVA bags (quick dissolving poly vinyl alcohol mesh).

- Ideal for method fishing
- Highly water stable
- Packed with attractants like fish oil
- Includes krill

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	2.0 mm
Fat	9.0	4.5 mm
Crude fibre	1.9	6.0 mm
Ash	5.0	8.0 mm

### Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

This relatively new feed pellet is designed for modern coarse feed tactics like method fishing. Method fishing requires pellets that, when prepared, are sticky enough to mould around the feeder and withstand casting. Once in the water slowly expand and fall away from the feeder leaving the hookbait exposed.

- Packed with attractants like fish meal and oil
- High in animal protein
- Larger sizes (14 and 20 mm) are waterstable up to three hours

### COMPOSITION:

Analyses (%)		Sizes
Protein	34	2.0 mm
Fat	15.0	3.0 mm
Crude fibre	1.5	4.5 mm
Ash	5.0	6.0 mm
		8.0 mm
		14.0 mm
		20.0 mm
Vitamins added		
Vitamin A (IE/kg)	10000	

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

Our Premium Select pellets are unique feed pellets whose attractive powers go beyond carp and catfish and are therefore available in many sizes to suit almost any type of fishing.

Also Premium Select can be fed as standalone feed pellets or are added to ground bait. To increase attraction, the pellets can be offered in a feeder or in PVA bags close to your bait.

- Predrilled hookable pellet
- Extremely water stable
- Packed with attractants like fish oil
- High in marine oil
- Includes krill

### COMPOSITION:

Analyses (%) 8.0 / 14.0 / 20.0 mm

Protein	32
Fat	13.0
Crude fibre	2.5
Ash	3.2

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG C

### APPLICATION:

This drilled bait contains several attractants which make this product very attractive and palatable with a long lasting effect. The Red Halibut is an ideal bait for specimen hunters for carp, catfish and barbel. Just like the Black Halibut, this Red Halibut is very water stable and can be used for a long period of time.

- Packed with attractants like fish oil
- With krill

### COMPOSITION:

Analyses (%)		Sizes
Protein	30	2.0 mm
Fat	13.0	4.5 mm
Crude fibre	2.3	6.0 mm
Ash	2.7	

### Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

### PERFECT FOR CATCHING AMONG OTHERS:

### APPLICATION:

The krill meal in combination with marine fish oil, make this Red Premium Select extremely attractive for freshwater fish. Also for these pellets there are various options how to use it. They can be standalone feed pellets, added to ground bait or offered in PVA bags.
